My thoughts on home learning in lockdown 2021

I was sad when my mam told me we were not going back to school in January and wondered if we would have to do our school work like we did in the summer. But this time has been much easier than things in the summer. Our work is all in one place in google classroom so it is easy to find. Our teachers have been really supportive and we meet 3 times each day, which has helped me to focus on what needs to be done and by when. It has been so helpful to be able to see my teachers and ask questions about the work and get some great praise for the work I have done.

I have really enjoyed our literacy topics so far, particularly the topic about the planets and the inhabitants there, I have been able to use my own imagination and be creative while learning. I am really enjoying reading the Firebird, it's the kind of story that I like.

I like the way I can have a chance to speak to my friends in the google meetings sometimes, it helps me not to miss them so much.

I am looking forward to going back into the classroom but this time things have been much better and I have found it a lot easier to do my work.

Thank you, Mrs Houghton and Miss Staward, for being fantastic lockdown teachers and making learning as good as it can be at home.
