

My Experience of Home Learning – Imogen Beardmore Year 5

Each Day we now have three meetings with my year group and teacher on google meet, resources for the lessons are also posted on google classroom. I think having the meetings with the teacher really helps with the tasks that we have to do and gives me confidence when doing independent learning. It is also good to hear questions that others in my class have and it gives us a chance to see and hear from each other as I miss being with my friends. It is good knowing the structure for the day and keeps me on track. Uploading my work to google classroom is easy. I can do this myself using the App on my phone and the teacher also comments on my work, which is good.
