Dear Diary

Today it snowed which is a nice change to a home learning day. Can you believe that Covid has been here for nearly a year!

Everyday feels like the same, we can't really go anywhere.

I don't mind doing work at home because I get to stay with my dad and brother. I also like spending play time in the garden.

I really miss my friends and teacher. I really miss school trips.

I find learning at home difficult because my dad can't help me all the time, he needs to help my brother too.

When we are doing a lesson sometimes my computer stops working which is really annoying.

I can't wait to go back to normal but I don't know when this will happen.

Write soon

Amelia
