

Where in the world is Hetton?

Unit Of Learning: Geography

In Geography we have been learning about where Hetton is in the world. We know what continent we live on, what oceans and seas surround us and we can find the United Kingdom on a world map.

We looked at what human and physical features were and went for a walk in the local area to identify them.

We found out that there wasn't many physical features in Hetton and we think that it is because we live in a town. We couldn't believe it when we found out that the lake was a human feature! This is because in the past it has been created on an old mining site.
